Unclassified			cytoskeletal protein		membrane traffic protein		chaperone				
Unclassified			actin or actin-binding cytoskeletal protein	cytoskeletal protein	regulatory protein		traffic protein chap		erone	Hsp90 family chaperone	
									eronin	Hsp70 family chaperone	
			microtubule or				protein protein	// I/adaptor protein cell adhes		on	
			microtubule-binding cytoskeletal protein	intermediate filament	protein			countries aduptor protein		rin	
			transporter		modifying	proteas	e				
metabolite interconversion enzyme			transporter	secondary carrier transporter	non-receptor	protein phosph	ein ein	daptor protein	cell adhesion	Icadherin	
transferase oxidoreductase					protein kinase ligase non-re		receptor osine		immunoglobulin superfamily cell adhesion molecule		
		oxidoreductase		primary active transporter	ion channel	translational protein ribosomal protein ribosomal protein protein ribosomal protein protein ribosomal protein protein ribosomal protein protein RNA RNA polymerase protein		calcium-bind protein _{inding} protein	caimodulin-related		
				protein-binding activity modulator					methyltransferase		transfer/carrier protein
					protein-binding activity modulator	aminoacyl–tRNA synthetase	translationa protein	defense/imm	factor	metabolism protein	transfer/carrier protein
metabolite interconversion enzyme	hydrolase		lyase	G-protein	G-protein modulator	transmembrane signal receptor transmembrane	G-prote	histocompatibility complex protein defe	protein e	ONA helicase Contract Contra	
					protease	signal receptor	coupled receptor	or -regulatory pro	-regulatory protein hromatin/chromatin-binding,		tor
	isomerase li		ligase		inhibitor kinase modulator			or –regulatory protein		extracellular matrix signal molecule glycoprotein
