Unclassified			cytoskeletal protein			transporter			chaperone				
Unclassified metabolite interconversion enzyme			actin or actin-binding cytoskeletal protein		cytoskeletal protein	primary active transporter			secondary carrier transporter cha		aperone	chaperonin	
			microtubule or microtubule–binding		ntermediate						90 family aperone	Hsp70 family chaperone	
			cytoskeletal protein		filament	protein modifyir	ng enzyme	trai	nslational pro	otein	scaffold/a protein	adaptor	
			membrane traffic protein mem		brane traffic	protein modifying enzyme	protease		ibosomal protein	translation factor		ld/adaptor rotein	
			membrane trafficking regulatory protein	protein			protein phospha ase non-recetyrosin protein kir	tase am	ninoacyl-tRNA synthetase	protein	n		
transferase oxidoreductase				ARE vesicle coat protein	cell adhesion m	olecule cadhe	rin prot	A metabolism tein RINA stabolism	protein nistocompa complex p	atibility component protein			
		protein-binding activity modulat		protein-binding activity modulator	cell adhesion molecule	immunoglo superfam cell adhes molecul	oulin ily ion	protein	defense/immun protein		calmodulin-related		
hudralass	metabolite interconversion enzyme isomerase		lyase	G-protein		G-protein modulator	transmembrane signal receptor	ne G-pro	chrom or -reg	erase international incompanies in a construction in a constructio	protein metab	olism helicase	extracellular matrix protein glycoprotein gene-specific
hydrolase			ligase			protease inhibitor	signal recepto	l coupl	tor	natin/chromatin-bindi r -regulatory protein ne modifying enzyi	protein		transcriptional regulator intercellular cell junction protein molecule
